Revenue Management

Ensure the accuracy of your claims before you submit them. Medisoft v16 allows you to verify patient eligibility and use pre-claim editing to review your filings for errors on the front end. You can dramatically reduce the number of returned claims that cost your practice time and money.

The new revenue management solution translates and displays electronic remittance advice (ERA) in an intuitive window. The biller can efficiently review payment information, flag changes and post individual payments and adjustments.

Billing

Customizable rules-based grids allow you to generate claims that quickly and easily meet the filing requirements of different carriers. With that level of flexibility, your practice can manage virtually any claim submission and adapt on the fly to address future payor changes and government mandates, including ANSI 5010.

The Flexibility You Need. The Stability and Security You Depend On.

Medisoft is a proven, easyto-use practice management solution that has the flexibility and security to meet the unique needs of your practice — today and tomorrow.

All from the most trusted name in the business — McKesson.

Your smart choice.
